

Low-impedance 100 V line transformer loudspeaker

FEATURES

Based on our extensive experience in the sound sector, FONESTAR has created SONORA.

SONORA is a series of loudspeakers specially designed for PA and ambient sound applications.

The excellent finish and elegant design allow a perfect blend into any space.

They are fully prepared for outdoor use as they have aluminium grilles and are waterproof (IP-66) and marine environments.

In addition, SONORA provides excellent sound quality with a clear, distortion-free sound.

All the necessary accessories for quick and easy installation are included: adjustable mounting bracket with weather treatment, stainless steel screws and steel safety cable.

APPLICATIONS

For music and ambient sound applications in public places such as restaurants, cafes, supermarkets, shopping centres, etc.
